WHO ARE WE

"Future Trade Group Ltd. is a UK-based sales and business development company specialising in PU wheels and caster solutions for global brands, distributors, and OEM customers.

We work in close partnership with our manufacturing facility, Danyang Duolunduo Manufacturing Co., Ltd., located in Jiangsu Province, China. The factory produces a wide range of PU wheels, foam wheels, and custom caster products used in scooters, skateboards, children's mobility products, luggage, and medical and industrial equipment.

With strong OEM and ODM capabilities, we support customers from product development through to mass production. Our customers benefit from flexible customisation, stable production capacity, and consistent quality control, ensuring reliable performance and competitive pricing.

Future Trade Group provides UK and European business support, acting as the direct communication bridge between customers and our manufacturing team in China. This ensures smooth cooperation, clear technical communication, and dependable delivery.

Our mission is to deliver high-quality, cost-effective wheel solutions that meet European market expectations and support long-term partnerships.
